

PromoJukeBox Okta Integration Manual

Starting January 2024, PromoJukeBox is pleased to offer Okta integration for enhanced convenience and security within your organization. If you have any questions regarding Okta integration in PromoJukeBox, please contact us at tech@promojukebox.com.

Supported Features

- Single Sign-On - SP Initiated Auth
- Single Sign-On - IdP Initiated Auth
- Okta Integration Network Catalog
- Okta Dashboard Integration

Requirements

- Administrative access to an Okta organization.
- A PromoJukeBox account

Configuration Steps

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.
2. Navigate to "**Applications**" and click on the "**Browse App Catalog**" button.
3. Search for "PromoJukeBox", click on the PromoJukeBox app button, and then click "+ Add Integration".
4. Choose the name by which you want to identify the application, with the default being PromoJukeBox.
5. You will be redirected to the "Assignments" tab. Here, assign users or groups that require access to PromoJukeBox.
6. Go to the "Sign On" tab and copy the Client ID and Client secret:

The screenshot displays the Okta management interface for an application named "PromoJukeBox". At the top, there is a header with the application name, a status indicator "Active", and links for "View Logs" and "Monitor Imports". Below this is a navigation menu with tabs for "General", "Sign On", "Import", "Assignments", "Okta API Scopes", and "Application Rate Limits". The "Sign On" tab is selected and highlighted with a red arrow. The main content area is titled "Settings" and includes an "Edit" link. Under the "Sign on methods" section, "OpenID Connect" is selected. Two input fields are visible: "Client ID" and "Client secret". Both fields contain masked text and have a copy icon to their right. Red arrows point to these copy icons. The "Client ID" field is described as a "Public identifier for the client that is required for all OAuth flows." The "Client secret" field is described as a "Secret used by the client to exchange an authorization code for a token. This must be kept confidential! Do not include it in apps which cannot keep it secret, such as those running on a client."

7.

Copy the Okta domain, which can be found by clicking on your username in the top right corner of the Admin Console:

8. Email us your Client ID, Client secret, and Okta domain at tech@promojukebox.com with the subject "Okta SSO Configuration". Upon receiving this information, we will set up your Okta instance and notify you once SSO is enabled for your organization.

Usage Instructions After SSO Activation - SP Initiated Auth

After PromoJukeBox has enabled SSO for your organization, we will send you an individual TenantID. With this TenantID, you can log in to PromoJukeBox at <https://www.promojukebox.com/okta>:

The screenshot shows a web browser window with the URL <https://www.promojukebox.com/okta>. The page has a white background with an orange header and footer. The header contains the PromoJukeBox logo and a menu icon. The main content area is titled "OKTA Login" and includes a note: "Fields marked with an asterisk * are mandatory". Below this is a form with a "TenantID*" label and a text input field containing the placeholder "Please enter your TenantID". A red arrow points to the input field. To the right of the input field is an orange "Send" button, also indicated by a red arrow. The footer is an orange rounded rectangle containing a grid of links: Home, About, Statements, Sign up, Audiobooks, FAQ, Tutorials, Pricing, Contact, GTC, Privacy Policy, Media Library, TakeDownLeak, SecureYourCopyright, and Log In.

Please enter your TenantID, confirm with a click on "Send", and you will be redirected to Okta for authentication:

For any inquiries regarding the creation of PromoJukeBox accounts, feel free to contact us at any time at tech@promojukebox.com.

Usage Instructions After SSO Activation - IdP Initiated Auth

1. Open a new tab/window in your browser and sign in to your Okta account as an administrator.
2. Navigate to "**Applications**" and click on the **PromoJukeBox** application.
3. Go to the "**Sign On**" tab and click the "**Edit**" link:

4. Beneath the "OpenID Connect" block, where your "ClientID" and "Client secret" are displayed, you will see **"Advanced Sign-on Settings"**. Please enter your TenantID in the **"TenantID"** field as shown below and save the change by clicking the **"Save"** button.

Sign on methods

The sign-on method determines how a user signs into and manages their credentials for an application. Some sign-on methods require additional configuration in the 3rd party application.

Application username is determined by the user profile mapping. [Configure profile mapping](#)

OpenID Connect is the only sign-on option currently supported for this application.

OpenID Connect

Client ID Copy

Public identifier for the client that is required for all OAuth flows.

Client secret Copy

Secret used by the client to exchange an authorization code for a token. This must be kept confidential! Do not include it in apps which cannot keep it secret, such as those running on a client.

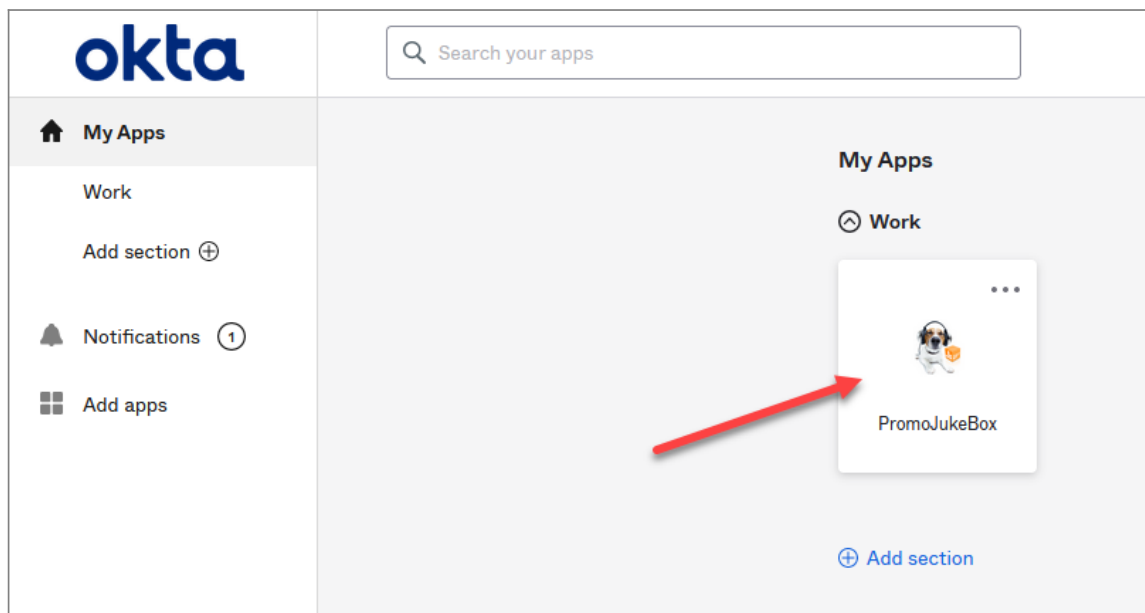

Advanced Sign-on Settings

These fields may be required for a PromoJukeBox proprietary sign-on option or general setting.

TenantID 

Enter your TenantID. Refer to the Setup Instructions above to obtain this value.

5. From this moment, you can click on the PromoJukeBox icon on your "Okta End User Dashboard" to launch and log into PromoJukeBox automatically.

Important Information

Once PromoJukeBox enables SSO for your company, traditional password logins, i.e., logging into PromoJukeBox with your username and password without Okta, will be disabled. Note that users must have a PromoJukeBox account, which can be created by signing up at <https://www.promojukebox.com/signup> or later on the PromoJukeBox User Management page.
